EDUCATION

Bachelor of Technology in Computer Science, *GLA University, Mathura, 9.02 CPI* Present

Intermediate, Vidya Devi Jindal School, Kosi Kalan, 78.4% May 2021

High School, Vidya Devi Jindal School, Kosi Kalan, 91.4% May 2019

INTERNSHIP/TRAINING EXPERIENCE

The Angaar Batch Jun 2023 – Aug-2023
Java Mentor - Part Time
- Enabled 100+ students to acquire comprehensive Core Java knowledge, guiding through fundamental and advanced concepts such as OOPS.

Code Clause Jun 2023 – Jun 2023
Full Stack Developer Intern
- Developed projects using the MERN stack, including a TODO app and a social media website.

Job Oriented Value Added Course, GLA University, Mathura Jun 2023 – Jul 2023
Trainee
- Successfully finished competitive Java programming training at Coding Blocks, specializing in data structures and algorithms.

PROJECTS

MovieLib | MERN Stack, TypeScript, Tailwind, Redis, Zustand Jun 2024
- **User Authentication:** Sign In/Sign Up functionality.
- **Home Screen:** Search for movies and view detailed information.
- **Movie Lists:** Create, manage, and delete movie lists; mark lists as public or private.

TextXtend | MERN, Redis, AWS-S3, Gemini Pro, JWT, Bcrypt, SocketIo, Quill Apr 2024
- Enhanced document processing with Gemini-Pro for OCR and summarization.
- Integrated Google Docs-like collaboration, improving real-time document collaboration.
- Rate Limit on Apis using Redis.

Evently | Next JS-14, MongoDB, Clerk, Stripe, Tailwind CSS Feb 2024
- Users can buy tickets for different events and manage events they've hosted, including updating and deleting them.
- Implemented a robust authentication system using Clerk and a secure payment gateway with Stripe.

Social Media App | MERN Stack Jan 2024
- Users can connect, follow, like, each other's posts just like other social media apps.

Kisan Seva | Java, Android Studio, Machine Learning, Python Nov 2023
- Offers crop-specific guidance and treatment to optimize care for more than 10 plant varieties.
- The app provides comprehensive access to a database containing more than 20 crop diseases, symptoms, and treatment methods.
- AI Based chatbot for end-user assistance.

SafeSurf | Java, Android Studio, ML, Python Apr 2023
- Automatically detects and analyses the incoming URL's with pre-trained machine learning models.

- Alerts user if URL is not safe to visit.

SKILLS

Technical

Java, DSA, MERN Stack, Tailwind CSS
GraphQL, Redis, PostGreSQL, TypeScript
Mysql, Javascript, Docker, Git, GitHub
NextJs, AWS-EC2, S3-Bucket

Professional

Effective Communication Skills,
Time Management,
Strong Problem Solving Skills
Team Worker

EXTRA/CO-CURRICULAR ACTIVITIES

- Runner up in Code-n-hunt, a coding event held by Code Busters club at GLAU.
- Participated in IBM ice day, intra college event held by GLAU..
- Certified as a MERN Stack developer by Cisco ThingQbator.

ACHIEVEMENTS

- Secured first place in GLA-Thon (2023), GLA University's intra-university hackathon, demonstrating problem-solving and collaboration skills.

- Secured second place in the GLA-Evolute 2023 Hackathon, a 24-hour competition where teams demonstrated technical skills and innovation.

- Attained a score of 90 marks in the NPTEL, IIT-KGP Introduction to Algorithm and Analysis course, ranking in the top 1% among participants.

- Solved 400+ coding challenges on Leetcode and GeeksForGeeks.

DECLARATION

I hereby declare that all the above mentioned information is true and correct to the best of my knowledge.
